EXPERIENCE

CHINA FOREIGN EXCHANGE TRADE SYSTEM

FICC Intern

Shanghai, China
Jul 2025 – Sep 2025

- Analyzed daily Chinese sovereign/local and policy financial bonds issuance and assessed implicit debt structures; authored daily market journals on respective yield movements from news and trading data insights
- Investigated relevant project defaults, debt accommodations, and fiscal spending to support risk assessments and regulatory recommendations in monthly reports on local government and policy financial bonds
- Replicated PCA models to study macro-financial shocks on treasury yields; identified short-term volatility and term shifts, as well as long-term drivers including business cycles and expected real rates

INVESCO

Invesco Fixed Income Intern

Hong Kong
Jun 2024 – Dec 2024

- Developed investment pitches for 6 open-end funds, with relevant regional projects such as Make in India in synthesizing investment themes, fund initiatives, and performance highlights
- Compiled credit opinions in machine learning using **Decision Tree models**, analyzing financial reports and pricing with Python, filtering important indicators with respect to industries and geographic locations
- Engineered a dictionary-based model with Python Natural Language Toolkit, categorizing economic events, descriptions, and timing indicators to compute FED hawkishness and market sentiment scores
- Determined 4 US-China geopolitical risks and corresponding investment opportunities in Mexico and India, presenting insights to Global Investment Leadership in an internal case competition

CHINA CITIC BANK INTERNATIONAL LIMITED

Research Team Part-time Intern

Alhambra, California
Aug 2023 – Jan 2024

- Published a 5-page article on China FOREX evaluating federal policy impacts on US Commercial Real Estate loan accommodations and workouts and demonstrating comparable case studies for the Chinese market
- Composed reports on 6 successful real estate restructurings during the Financial Crisis and COVID periods and compared the capital structures and business strategies with underperformers such as Evergreen

CLSA

Finance Summer Intern

Hong Kong
Jun 2023 – Aug 2023

- Optimized company data systems through implementing Alteryx and UiPath to drive automated data analysis as well as coordinated 6 cross-department learning groups and designed 2 training demos
- Automated quarterly country-market report production with Python, incorporating web scraping of IPO data from HKEX and generating visual analytics for business line assessments
- Explored the application of Consumer Behavior theory in modern social media and delivered a 20-minute presentation on its impact on consumer nudging in research competitions
